

Little Hope–Moore Water Supply Corporation

150 FM 16

Canton, TX 75103

903-253-5565

Dear Customer,

In order to provide the best possible service, the Board of Directors and staff of Little Hope-Moore WSC have implemented an automated messaging service. In the past, when outages or other problems occurred on the water system, there has been no effective way to notify customers. With this automated messaging service, we are able to notify customers of problems, give advanced notice of a known outage or communicate other important information at a moment's notice. This phone number you provide will be for Little Hope-Moore WSC use only.

You may choose to be notified by a land line telephone or by cell phone. If you choose not to submit a contact number, we will have no way of informing you in the event of an emergency.

Please enter the phone number you wish to be informed by: _____
